

The background of the slide is a blue-tinted photograph of medical equipment. In the foreground, a stethoscope is visible, with its chest piece resting on a surface. Behind it, there are several glass vials or ampoules, some with white caps. The lighting is soft, creating a professional and clinical atmosphere.

ASEAN Comprehensive Recovery Framework (ACRF)

Broad Strategy 1

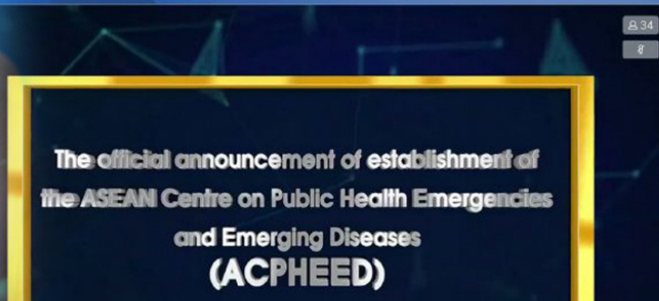

Enhancing Health Systems

As a follow-up to the ASEAN Leaders' Declaration on ASEAN Vaccine Security and Self-Reliance (AVSSR), adopted by the 35th ASEAN Summit, collective efforts are underway to ensure timely and equitable access to affordable and quality-assured COVID-19 vaccines through the **Regional Strategic and Action Plan for ASEAN Vaccine Security and Self-Reliance**.

Ongoing progress in the establishment and operation of the **ASEAN Centre for Public Health Emergencies and Emerging Diseases (ACPHEED)**, which would serve as a centre of excellence and regional resource hub to strengthen ASEAN's public health capacities in prevention, detection, and responses towards emerging diseases.

Continuous capacity enhancement of the health professionals in the region, among others, through

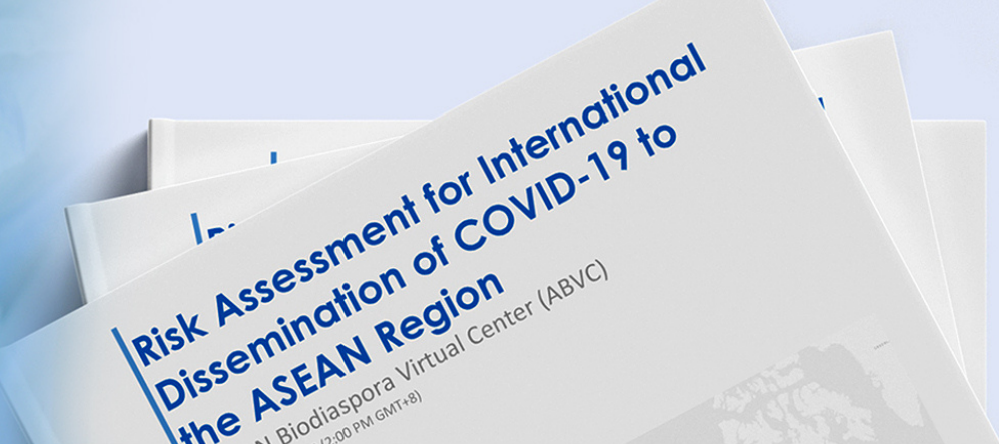

ASEAN Emergency Operation Center (EOC) Network on Public Health Emergencies

ASEAN Plus Three Field Epidemiology Training Network

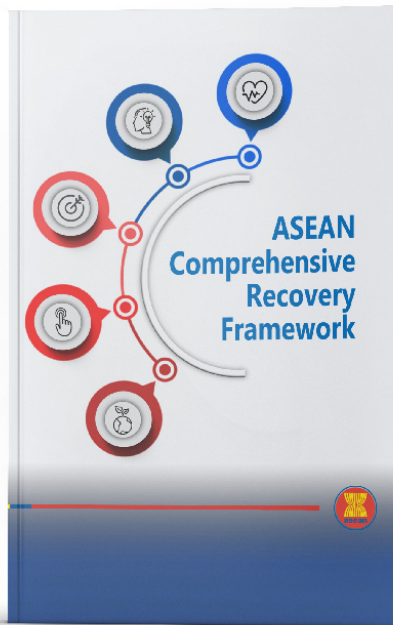

The ASEAN Center for Military Medicine

Provide timely dissemination of information and sharing of relevant data through the enhanced operation of the **ASEAN Biodiaspora Virtual Centre**, interfacing with the **ASEAN Portal for Public Health Emergencies**.
