

ASEAN Comprehensive Recovery Framework (ACRF)

Broad Strategy 5
**Sustainable and
Resilient Future**

ASEAN adopted the **ASEAN Plan of Action on Energy Cooperation (APAEC) Phase 2: 2021-2025**.

The region's effort to pursue 32% energy intensity reduction by 2025 (based on 2005 levels) **has now resulted in 21.8% reduction in 2019**.

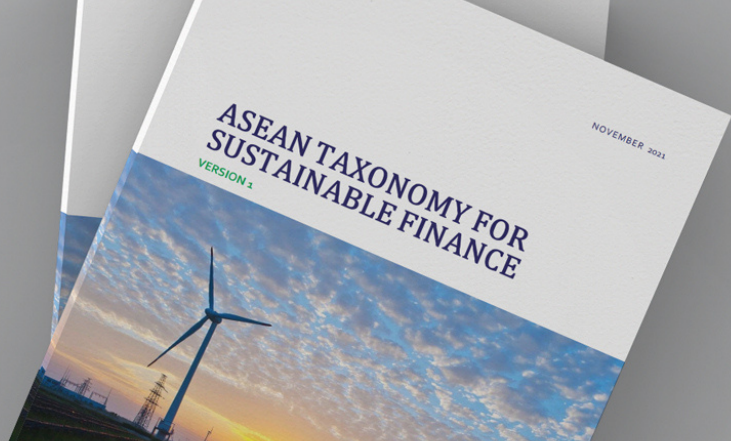

ASEAN also achieved **28.7% share of renewable energy** in total installed power capacity and **13.5% share in Total Primary Energy Supply in 2019**. In addition, **82% of new power capacity additions in 2020 came from renewable energy**.

ASEAN adopted the **Bangkok declaration and Framework of Action**, as well as the **ASEAN Regional Action Plan for Combating Marine Debris in the ASEAN Member States (2021-2025)** to support the region's fight against marine plastic waste.

Support the region's **transition to circular economy** through **adoption of Framework for Circular Economy for the ASEAN Economic Community**.

Promotion of sustainable financing through the issuance of the **ASEAN Sustainable Finance Taxonomy** and the **ASEAN Green, Social and Sustainable Bond Standards**.

Continuous effort in building **green infrastructure** and addressing basic infrastructure gaps.

Reducing **disaster risks** and strengthening **disaster management** and **emergency response**.

Promoting **sustainable and responsible investment**.

Creation and testing of an **ASEAN Learning and Accreditation Programme** to implement the **ASEAN Guidelines on Promoting Responsible Investment in Food, Agriculture and Forestry (ASEAN-RAI)**.

This aims to increase understanding and application of environmental, social, economic and governance principles to private sector investments.
